Annotated Bibliography

1. Humane World for Animals. (2026). Food industry menu of services.
The Humane World for Animals is the organization behind the Forward Food Pledge. This document describes the Forward Food Pledge structure. It can either be a menu goal (% plant-based meals within five years) or a procurement goal (% reduction in animal-product purchases). This source will be used to explain the framework my dashboard measures Pomona against.

2. Poore, J., & Nemecek, T. (2018). Reducing food's environmental impacts through producers and consumers. Science, 360(6392), 987–992. https://doi.org/10.1126/science.aaq0216
Meta-analysis of ~38,700 farms showing how animal products release more greenhouse gasses and use more land and water compared to plant-based substitutes. This will be used to contextualize Pomona College's motivation for why "percent plant-based" is a meaningful metric to work toward.

3. Thomsen, M. (2026, May 20). Students use President's Sustainability Grants for campus innovation. Pomona College News. https://www.pomona.edu/news/2026/05/20-students-use-presidents-sustainability-grants-campus-innovation
This new article documents Pomona's specific pledge and how it came about (~50% plant-based within five years, student-led). This source will be used to establish Pomona's commitment.
